Directions (1 – 5): Study the following arrangement carefully and answer the questions given below:

CEBACDBCDA**CE**BEDCABADACEDUBAUBDBU

- How many such pairs of alphabets are there in the series of alphabets given in BOLD (D to C) in the given arrangement each of which has as many letters between them (in both forward and backward directions) as they have between them in the English alphabetical series?
(a) Three (b) One (c) Two (d) None
(e) More than three
- Which of the following is the ninth to the right of the twenty second from the right end of the above arrangement?
(a) D (b) E (c) B (d) C (e) U
- How many such As are there in the above arrangement each of which is immediately preceded by a 'B' and also immediately followed by a consonant?
(a) One (b) None (c) More than three
(d) Two (e) Three
- How many such Ds are there in the above arrangement each of which is immediately preceded by a consonant and also immediately followed by a vowel?
(a) More than four (b) Four (c) One (d) Three
(e) Two
- How many Bs are there in the above arrangement?
(a) Five (b) Seven (c) Six (d) Nine (e) Eight

Directions (6 – 9): Four of the following five are alike in a certain way and so form a group. Which is the one that does not belong to that group?

- (a) Chair (b) Table (c) Rack (d) Furniture
(e) Drawer
- (a) Sandal (b) Boot (c) Feet (d) Shoe (e) Slipper
- (a) Mouse (b) Animal (c) Lizard (d) Cat (e) Horse
- (a) Shawl (b) Sweater (c) Handkerchief (d) Coat
(e) Muffler
- How many such pairs of letters are there in the word CREATION each of which has as many letters between them in the word (in both forward and backward directions), as they have between them in the English alphabetical series?
(a) None (b) One (c) Two (d) Three
(e) More than three
- How many meaningful words (not ending with S) can be made with the alphabets A, D and S, each being used only once in each word?
(a) None (b) One (c) Two (d) Three
(e) More than three

- Pointing to a boy, Richa said, "He is the son of the wife of my grandmother's grandson". How is the boy related to Richa's mother?
(a) Son (b) Grandson (c) Son-in-law
(d) Great Grandson (e) Cannot be determined

- 'Recite' is related to 'Poem' in the same way as 'Read' is related to ____
(a) Habit (b) Passage (c) Pencil (d) Sharpener
(e) School

- 'Water' is related to 'Well' in the same way as 'Coal' is related to ____
(a) Factory (b) Mine (c) Graphite (d) Village
(e) Fuel

- If it is possible to make only one meaningful word, beginning with T with the first, the third and the sixth letters of the word 'OPERATE', which would be the second letter of that word from the left? If more than one such word can be formed, give 'X' as the answer. If no such word can be formed, give 'Z' as your answer.
(a) X (b) E (c) T (d) O (e) Z

Directions (16 – 20): Study the following information to answer the given questions:

Nine friends, P, Q, R, S, T, W, X, Y and Z are sitting in a circle, facing the centre but not necessarily in the same order. X is to immediate left of R. T is to immediate right of P. W is fifth to right of X. Only one person is sitting between P and Q. Q is an immediate neighbor of T. S is second to right of R. Y is an immediate neighbor of W.

- Who is sitting exactly between R and S?
(a) X (b) Z (c) Q (d) Y (e) None of these
- Who is sitting exactly between Y and Z?
(a) P (b) W (c) R (d) S (e) None of these
- Who is sitting third to the right of W?
(a) R (b) X (c) Q (d) Z (e) None of these
- Amongst the following pairs of people, which of the pair represents the people each of whom is an immediate neighbours of X?
(a) RQ (b) WZ (c) YZ (d) RZ (e) None of these
- Four of the following five pairs of people are alike in a certain way based on their position in the arrangement given above and so form a group. Which one of the following pair of people does not belong to that group?
(a) TW (b) WS (c) TX (d) XS (e) SR

Directions (21 – 25): Study the following information to answer the given questions:

Eight friends A, B, C, D, E, F, G and H are sitting in a straight line facing the North not necessarily in the same order. D is second to the right of F. G is second to the right of C. C is second to the right of D. D is

fifth to left of H. B is not an immediate neighbor of either F or G. A is not an immediate neighbor of C.

21. What is E's position with respect to F?
 (a) Third to right (b) Fourth to right
 (c) Second to left (d) Fifth to left (e) None of these
22. Choose from the following pairs of people, the one pair that represents the set of people sitting at the extreme ends of the line.
 (a) FH (b) BC (c) AG (d) DB (e) None of these
23. Four of the following five pairs of people are alike in a certain way based on their positions in the arrangement given above and so form a group. Which one of the following pairs of people **does not** belong to that group?
 (a) AD (b) FA (c) BC (d) AB (e) DB
24. Who is sitting third to the left of B?
 (a) E (b) G (c) F (d) H (e) None of these
25. Who is sitting third to the right of C?
 (a) E (b) F (c) H (d) B (e) None of these

Directions (26 – 30): In each of the questions below are given three statements followed by three conclusions numbered I, II and III. You have to take the given statements to be true even if they seem to be at variance from commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

26. Statements:

All halls are tyres. Some tyres are wheels.
 All wheels are cars.

Conclusions:

I. Some cars are wheels. II. Some cars are tyres.
 III. Some wheels are halls.

- (a) None follows (b) Only I follow
 (c) Only I and II follow (d) Only III follows
 (e) Only II and III follow

27. Statements:

Some blades are hammers. Some hammers are knives.
 Some knives are axes.

Conclusions:

I. Some axes are hammers. II. Some knives are blades.
 III. Some axes are blades.

- (a) None follows (b) Only I follow
 (c) Only II follows (d) Only III follows
 (e) None of these

28. Statements:

All dolls are windows. All bottles are windows.
 All cars are bottles.

Conclusions:

I. All cars are windows. II. Some cars are dolls.
 III. Some windows are cars.

- (a) Only I and II follow (b) Only II and III follow
 (c) Only I and III follow (d) All follow
 (e) None of these

29. Statements:

Some benches are beads. All beads are flowers.
 No tree is flower.

Conclusions:

I. Some trees are benches. II. Some trees are beads.

III. No tree is bead.

- (a) Only I follow (b) Only either I or II follows
 (c) Only either II or III follows (d) Only III follows
 (e) None of these

30. Statements:

All breads are tables. Some tables are brushes.
 All brushes are paints.

Conclusions:

I. Some paints are breads. II. Some brushes are breads.
 III. Some paints are tables.

- (a) None follows (b) Only II follows
 (c) Only III follows (d) Only I and II follow
 (e) Only II and III follow

Directions (31 – 35): Study the following information carefully and answer the questions given below:

Six lectures are scheduled in a week starting from Monday and ending on Sunday of the same week. Computer science is not on Tuesday or Saturday. Psychology is immediately after organizational behavior. Statistics is wednesday and there is one day gap between statistics and Research Methods. One day prior to the schedule of Economics there is no lecture (as that day is the 'off' day and Monday is not the 'off' day). Research methods is not on Monday.

31. Which day is the 'off day'?

- (a) Tuesday (b) Wednesday (c) Saturday
 (d) Cannot be determined (e) None of these

32. Which of the following is the last lectures scheduled?

- (a) Economics (b) Research Methods
 (c) Psychology (d) cannot be determined
 (e) None of these

33. If Wednesday is the 'off' day, the code would be 2-4, if Thursday was the 'off' day, the code would be 3-3. Taking into account the 'off' day which of the following code is correct?

- (a) 2 – 4 (b) 3 – 3 (c) 4 – 2 (d) 5 – 1
 (e) None of these

34. How many lectures were scheduled between Economics and Psychology?

- (a) One (b) Two (c) Three
 (d) Cannot be determined (e) None of these

35. If someone wants to attend only two letters out of Psychology, Research Methods and Computer Science but wants the two days to be successive (one after the other) then which lecture- combination may be selected?

- (a) Research Methods, Computer Science.
 (b) Psychology, Computer Science
 (c) Psychology, Research Methods
 (d) Any two of the three is possible
 (e) With the condition of successive day it is not possible

Directions (36 – 40): In each of these questions, relationship between different elements is shown in the statements. The statements are followed by two conclusions.

Give answer (a) If only conclusion I is true

Give answer (b) If only conclusion II is true

Give answer (c) If either conclusion I or II is true

Give answer (d) If neither conclusion I nor II is true

Give answer (e) If both the conclusion I and II are true.

36. **Statements:** $Y = Z$; $W < X \leq Y$; $Z < K$
Conclusions: I. $W < Z$ II. $X < K$
37. **Statements:** $M = N$; $N > L \geq S$
Conclusions: I. $S < N$ II. $M > S$
38. **Statements:** $G > H \geq I$; $J > I$; $K = J$
Conclusions: I. $G > I$ II. $H > K$
39. **Statements:** $B \geq A$; $B > C$; $D = E > C$
Conclusions: I. $A < D$ II. $A > E$
40. **Statements:** $R = S > T$; $R < Q$; $P < Q$
Conclusions: I. $P \leq S$ II. $Q > T$

ENGLISH

Directions (41 – 50): Read the following passage carefully and answer the questions given below it. Certain words have been printed in **bold** to help you locate them while answering some of the questions.

Despite these tremendous achievements, the Indian economy was **bogged down** in recent years by various factors. These included inadequate infrastructure, a deteriorating financial position characterized by rising fiscal and current account deficits, and most importantly, **fractious** coalition governments that made it difficult to achieve consensus and push through the tough reforms needed to take the economy to the next level.

The second wave of landmark reforms may not be as dramatic as the first wave that commenced in 1991, but they will have far-reaching effects on the Indian economy just the same. Proposed measures include infrastructure development, implementation of a goods and services (GST) tax that could contribute to a percentage point increase in annual GDP growth, and opening up more areas of the economy to foreign investment. Another priority would be reducing the **burgeoning** subsidy bill that had grown fivefold over the past decade to 2.6 trillion rupees annually.

Long – term growth drivers for India.

“Demographic dividend”: Half of India’s 1.2-billion populations is under the age of 25. By 2020, India will have the world’s youngest population, with a median age of 29 years, compared with a median age of 37 in China. This demographic dividend could potentially give India the biggest labour force and make it the largest consumer market in the world.

Growing middle class: India’s middle class of 250 million already represents one of the biggest consumer markets in the world. This educated, tech-savvy and relatively affluent group is expected to continue its rapid growth in the years ahead.

Low penetration of goods and services: Despite the economy’s progress over the past quarter- century, the Indian market still has a relatively low penetration of goods and services, which translates into massive untapped potential. For example, in 2009, there were only 11 passenger cars per 1,000 people in India,

compared with 34 in China, 179 in Brazil, 233 in Russia, and 440 in the U.S.

A functioning democracy: One of India’s greatest strengths is that it is a vibrant and functioning- albeit a trifle chaotic – democracy, where the electorate regularly exercises its constitutional right to kick out non-performing governments. India’s army, one of the world’s largest, is also staunchly apolitical aloof from political **shenanigans**.

Established companies and institutions: India has a **thriving** business sector with dynamic SMEs and large companies that are increasingly expanding overseas, educational institutions that are among the world’s best, and competent financial organizations.

The longer – term outlook for the Indian economy is getting brighter just as that of its BRIC counterparts is getting murkier.

The IMF projected in 2014 World Economic report suggest that the Indian economy would accelerate from a 5.6% pace in 2014 to 6.4% in 2015 propelled by rising exports and investment. In contrast, China’s growth is projected to moderate to a more sustainable pace, from 7.4% in 2014 to 7.1% in 2015, as **decelerating** credit growth slows investment and real estate activity continues to ease. While China continues to grow at a faster pace than India, the performance differential is shrinking, and for the first time in years, the growth trajectories are moving in opposite directions.

The outlook for Brazil and Russia is much less positive. The Brazilian economy contracted in the first half of 2014, and is forecast to grow only 0.3% in 2014, hindered by political uncertainty, low business confidence and tighter financial conditions. The IMF forecasts growth to rebound modestly to 1.4% in 2015. Russia is forecast to post the slowest growth of the BRIC nations in 2014 and 2015, as economic sanctions in the wake of the Ukraine conflict take their toll on the economy.

41. Which of the following factors as mentioned in the passage is not one that bogged down the Indian economy in recent years?
- troubling coalition governments
 - bad financial position with rising fiscal and current account deficits.
 - Inadequate infrastructure
 - frequent parliamentary elections causing heavy loss to exchequer.
 - None of these

42. Which of the following statement(s) is/ are true in the context of the given passage?

Directions (71 – 80): In the following passage there are blanks, each of which has been numbered. These numbers are printed below the passage and against each, five words are suggested, one of which fits the blank appropriately. Find out the appropriate word in each case.

Inflation has (71) in nations at early stages of development. Between 2003 and 2011, India was (72) at an average of 8%. From 2008, inflation was close to 10%. When korea took off in the 1970s, its figures were not very different. What is (73) over the last year and a half is that growth has slumped to between 4.5 and 5%. And that is what is making the inflation more (74). On inflation, in fairness to government, let me point out that while people (75) the government, the blame has to be shared by economics as a discipline. We know a couple of rules – control interest rates, check fiscal deficit – about (76) inflation, but we don't have a surefire method for controlling inflation. Most people believe that prices can be easily controlled by the government, (77) in a country of 1.2 billion people there are millions of people who are setting prices. Yes, government can and ought to do more to check inflation. But even more importantly it should get growth (78) up to 8%. This is entirely possible to achieve within two years from now. Well, a large number of jobs will be created in the (79) sector. It's not that every job will have to be created in the formal sector. Having said that, job is a big challenge and also a (80) for progress.
